Customers say

Customers find the power bank charges devices quickly and works well, with good battery life that keeps tablets going for hours. They appreciate its portability for travel and road trips, its compact size that fits easily in pockets, and consider it good value for money. The build quality receives positive feedback, with customers describing it as robust and solid. Opinions about weight are mixed, with some finding it not too heavy while others consider it bulky.

Portable Charger, 33800mAh Power Bank, Amazing

Reviewed in the United States on October 29, 2024

Color: Black **Verified Purchase**

Ah, the SuperCharge 33800MAH - because let's face it, who doesn't want to carry around what feels like a brick of gold, but for your devices? Here's a lighthearted take on this power-packed companion:

Design & Build:
Looks: It's like they took a regular power bank, said, "You know what this needs? More bulk!" and threw in some sci-fi aesthetics for good measure. It looks like it could power a small spaceship, or at least a very large smartphone.
Portability: "Portable" might be a bit of an overstatement. It's like calling a backpack a purse. You'll feel it in your pocket, but hey, nobody will ever ask if you've got the power.

Performance:
Capacity: With 33800mAh, you could probably charge your way out of a tech apocalypse. It's like having a personal power station. Your phone will be charged before it's time for the next software update.

SARAH

Great for my book bag!

Reviewed in the United States on April 2, 2025

Color: Black **Verified Purchase**

This is been a lifesaver. It's compact, so it fits easily in my bag, but it still holds a good amount of charge. I've used it a few times to charge my phone and it works fast. The battery life is solid, and I never have to worry about my devices running out of juice when I'm on the go. Overall, I'm really happy with the purchase—it's simple, reliable, and gets the job done. I like how the battery percentage is a display and a number.

Keeps My Phone Going Forever

Reviewed in the United States on March 8, 2025

Color: Black **Verified Purchase**

This power bank is a beast. It charges my phone so many times before I even think about plugging it in again. The digital display is nice because I can see exactly how much battery is left instead of guessing. It's not too big, but it's got some weight to it, which makes sense because it holds a ton of power. I've used it for my iPhone, my friend's Samsung, and even my AirPods, and it handles everything without a problem.

The fast charging is a lifesaver. I don't have to sit around waiting forever for my phone to power up, and when I'm out all day, I don't even worry about my battery dying. The USB-C and USB-A ports mean I can charge multiple things at once, which is super handy. If you need something strong and reliable to keep your devices going, this is it.

J.P.

INCREDIBLE value AND performance!

Reviewed in the United States on March 28, 2024

Color: Black **Verified Purchase**

This thing is really one of the best power banks you can get for your money. I've seen power banks with less capacity lacking the Percentage feature go for twice, if not three times as much money. I've seen some power banks with less capacity go for over \$140 just because it was waterproof and charged "super fast" as they advertised. This charges very quickly, my phone charges almost as fast as it would with my expensive wall charger.

I got a power bank from Anker that was like 60 dollars a couple years ago, and it had less capacity AND did not have a percentage, it just showed 4 small LEDs. 4 would be full, 2 would be halfway, and 1 or less would be low. It was obviously not easy to tell exactly how much charge it had. This one solves that easily by having the percentage LED display.

PLEASE NOTE: This device WILL charge slowly, but it's not charging slow, it's just such a high capacity that it will take a lot of time to charge it. It will charge your devices FASTER than the device itself charges. This

大容量、薄型

Reviewed in Japan on April 2, 2025

Color: Black **Verified Purchase**

容量は十分です
スマホ22%から100%まで(78%)充電して、このバッテリーは10%しか減ってなかったので、10回は充電出来ます。
それと大容量なのにそこそこ薄いのはカバンに入れやすいので嬉しいです。
多少は重いですが、腕が疲れるほどではありません。

頼りがいある長時間バッテリー

Reviewed in Japan on March 21, 2025

Color: Black **Verified Purchase**

家族が長めの外出の際のモバイルバッテリーを欲しがったため購入。
iphone13ですらばっちり何回も充電が出来ました。
それなりに重さ、大きさはありますが、薄型で頼りないモバイルバッテリーよりいいです。
長いおでかけで安心材料なのはありがたいです。
これじたいを充電するのは思ったより早く充電出来たのでそれもよいポイントです。
キャリアケースに充電器をとりつけるところがあるのでそれに今後使うのもいいなって思っています。
