Overview

The 1/2 in. Tectite by Apollo Non-Metallic Water tight Push-to-connect Straight connector is the fastest, simplest and cleanest way to connect flexible non-metallic conduit without the use of tools or glue. Simply insert the conduit to allow the high-strength stainless steel teeth to grip the pipe securely against the specialty designed o-ring. Fitting removal and reuse is just as simple. Pull the collar back against the fitting and remove the conduit with a twisting motion. After assembly, fittings may be rotated for simpler installation in tight spaces. All Tectite Electrical by Apollo fittings are UL listed and watertight.
